

PRESS RELEASE

Artesyn Embedded Technologies Recognized for Exceptional Innovation with Four Communications Solutions Product of the Year Awards

Tempe, Ariz. [2 July, 2014] — Artesyn Embedded Technologies today announced that it has won four 2014 Communications Solutions Product of the Year Awards from [TMC](#), a global, integrated media company.

The four winning Artesyn solutions are the recently announced [Centellis™ 8000 series](#) open standard server system, the [ATCA-7475](#) advanced packet processing and networking blade, [SSF](#) system management software and framework and [FlowPilot™](#) packet balancing software.

Todd Wynia, vice president for communication products, Artesyn Embedded Technologies, said: “We believe that winning four Communications Solutions awards in a single year is a record for our business, even with our rich history, which we can trace through Motorola Computer Group, Force Computers, Blue Wave Systems and other great innovators in network infrastructure. Winning two awards for hardware and two for software is a showcase of our commitment to being a total solutions provider for our customers.”

Rich Tehrani, CEO, TMC, said: “Congratulations to Artesyn Embedded Technologies for receiving four 2014 Communications Solutions Product of the Year Awards. Artesyn’s solutions have demonstrated true innovation and are amongst the best solutions that facilitate voice, data and video communications brought to market in the past twelve months. I look forward to continued excellence from Artesyn in 2014 and beyond.”

TMC announced the 2014 Communications Solutions Product of the Year Award winners via [press release](#).

About TMC
