

Supplier Conflict Minerals Policy

Artesyn expects our suppliers to have in place policies and due diligence measures that will enable us to reasonably assure that the Conflict Minerals; tantalum, tin, tungsten and gold, in the products they manufacture are conflict free.

Artesyn expects our suppliers to undertake reasonable due diligence to determine if the specified metals are being sourced from certified conflict-free smelters and, if not, to make deliberate progress towards doing so. The list of CFS compliant smelters is posted at www.conflictreesourcing.org.

In support of this policy, Artesyn will:

- Exercise due diligence with relevant suppliers consistent with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas and encourage our suppliers to do likewise with their suppliers.
- Provide, and expect our suppliers to cooperate in providing, due diligence information to confirm the tantalum, tin, tungsten and gold in our supply-chain is DRC conflict free.
